Dear Fulkos

Santa vera basty line in hopes
it will arrive by 25th, and the
other hope is that I gotta hit the
sack as I draw KP this week for
a pre Christmas present and Stan
is still darned early.

Got your dollar Christmas card
today, I think its very nice. By
this time you probably know
the gals will be without their sol-
fers this year, imagine Ill take
off some time in Jan - will let
you know so's you can all come
down -

Sure wish you had sent Selma's
d. down I'd have given it the
big alright - Help the wood butcher
here with some toys for his boy.

Just got a wire from Rudy
Vetter he's in Dallas over the
Lmas holiday wants me to come
up, but as soldiers can't travel
on trains or busses don't think I
could make it on the time I can
get off -

Speaking of Haldey Eggs they'll
probably find a way to some mess
hall - notice those going in
the canteen were labeled
as such -

over —

Thanks for the Yanks, I hope my
subscription is canceled next year
but I doubt it - the way they are
taking guys here, will soon be
just we "old" men and boys look
for overseas here and everywhere
else - But what's gotta be lies
gotta be and we does get enjoy-
ment out of dreaming of the
future.

Make it an old fashioned
Christmas the youngsters must
not miss the enjoyment or the
real meaning of the day -

And a happy New Year.
